Introduction

ABOUT THIS TOOLKIT

Planning to support National Child Abuse Prevention Month is easier with the free outreach tools available to you from the Children's Bureau. In section 1, find social media posts, themed graphics, customizable graphics, GIFs, and more. We have also included tools to help you partner with the media to expand the reach of your campaign in section 2. Visit the [National Child Abuse Prevention Month website](#) to find year-round support on educating your community about how strengthening families puts prevention into practice.

WHY WE NEED YOUR SUPPORT

Each April, during National Child Abuse Prevention Month, we recognize the importance of communities working together to prevent child maltreatment by helping families thrive.

Every action helps make the well-being of children and families a priority.

Whether it's a message in your email newsletter, an op-ed in your local paper, or a feature on your website, strengthening families means letting your community know that we all can play a role in helping families thrive. Use the free resources in this outreach toolkit to engage your community in supporting children, youth, and families during National Child Abuse Prevention Month!

The theme for this year's National Child Abuse Prevention Month is **"Thriving Children and Families: Prevention With Purpose."** By making commitments to purposeful action, rather than just raising awareness, we can treat the root causes of maltreatment and promote the safety and well-being of children across the country together.

Promoting greater [public awareness on protective factors](#) is one major action you can take to support prevention.

Follow us on [Facebook](#) and [Twitter](#) and use the hashtags **#ChildAbusePreventionMonth** and **#ThrivingFamilies** to see the latest updates and messages to share with your audience and help spread the word throughout the month of April!

SECTION II

Partnering With the Media

Raise greater awareness in your community by partnering with the media to spread the word.

Use these messages in your emails, newsletters, local papers, on your website, and share with your local jurisdictions.

KEY FACTS AND STATISTICS

The most common type of maltreatment is neglect.

In Federal fiscal year 2020, about 3.9 million referrals were made to child protective services concerning the safety and well-being of approximately 7.1 million children.

Last year, an estimated 618,000 children were found to be victims of child abuse or neglect nationwide.
